Welcome and introductions – Bill Winner

Annual Sustainability Report preview - Tracy Dixon

- The Annual Sustainability Report is at the printer. Circulated a hard copy proof of the report and showed a preview of the online version.
- Appointed CEST members will receive a hard copy.
- Once hard copies arrive a large electronic distribution will provide notice of the report to the rest of campus.

Meet an NC State Steward – Amelia Fujikawa

- Interested in Corporate Social Responsibility
- Interned with a chemical plant, started a recycling program, won a Think and Do award

NC State Steward projects – Jason Endries, Ameila Fujikawa & Eric Rizzo

- See attached presentation for details. Below were points of conversation.
- Plastics project - suggestion to have bins at Atrium and to pair them with waste and recycling bins at Talley, importance of elimination of single use plastics
- Garden project- suggestion by Tom S. to connect with OUA, Dick B asked for clarification about the [SOUL garden](#).
- Energy competitions - competitions have been very successful and will be happening with in the Tri Towers and Wolf Ridge this month, last year's saved enough energy to take a residence hall offline for a month
- Campus Connections – Keith Smith asked if Dining could attend. Stewards offered to share date and location of the meeting.
- Walt suggested making connections with academic efforts in each of these areas
-

New sustainable energy minor – Bill Winner

- 1 required course, 1 energy/technology course, 3 other courses and one seminar
- Relies heavily on advising in order to meet guidelines
- Cannot use major courses to count as minor, must be outside of main area of study
- Greg Wilson is the lead advisor for this minor and more information can be found through the Division of Academic and Student Affairs
